

16<sup>th</sup> April 2012

To Whom It May Concern:

The Arabian Horse Society of Australia Ltd's main objectives are those of maintaining the purity of the Arabian horse, keeping the Stud Book and Registries for Arabian and Arabian Derivative horses and promoting the interests of the Arabian horse and its breeders. This includes promoting the popularity of Arabian Horses to non-members throughout Australia and increasingly internationally.

The Arabian Horse Society of Australia Ltd recognizes that the National Arabian Racehorse Association is a non profit Organisation established under Australian Law as the controlling authority for Arabian Horse Racing in Australia. As the controlling body the National Arabian Racehorse Association represents Australia on the International Federation of Arabian Horse Racing Authorities.

As a member country of the International Federation of Arabian Horse Racing Authorities, the National Arabian Racehorse Association is the only recognized body authorized to conduct racing for Purebred, Partbred and Anglo Arabians in Australasia, and as such has the full support of the Arabian Horse Society of Australia Ltd.

Yours faithfully

Harold Williamson  
Secretary Manager
